

Practice Team Information Communications Update

Issue 03

Jan 05

Spice PTI Screens – will provide practices with the ability to record their PTI contacts using the new [SPICE](#) PTI Screens built into the latest release of SPICE in [GPass](#) 5.7.

This development will be of most use to nurses and alleviate the need to use different screens when recording their PTI activities. We hope practices find this a useful development. If you wish to know more about this development, please contact the [PTI Team](#) to find out more.

MSD CDS PTI Screens – will provide practices with the ability to record their PTI contacts using the new [CDS](#) PTI Screens. These new screens will be automatically downloaded into your practice systems (with a notification/ acceptance) from MSD. The purpose of this development is to alleviate the need for nurses to use different screens when recording their PTI activities. We hope those practices using CDS find this a useful development. If you wish to know more about this development, please contact the [PTI Team](#).

Automated Extraction – 50% of practices are now returning their PTI data electronically to ISD. It is hoped that all practices will be set-up to do this by the end of February 06. If you wish to know more please contact the [PTI](#) team.

Next Issue – Feb 06

New Modifiers – Simplification of PTI Recording
National training Days – Training Days on new modifiers
