Pre-Release Access

Under terms of the "Pre-Release Access to Official Statistics (Scotland) Order 2008", ISD are obliged to publish information on those receiving Pre-Release Access ("Pre-Release Access" refers to statistics in their final form prior to publication). The standard maximum Pre-Release Access is five working days. Shown below are details of those receiving standard Pre-Release Access.

**Standard Pre-Release Access:**

- Scottish Government Health Department
- NHS Board Chief Executives
- NHS Board Communication leads

**Early Access for Management Information**

These statistics will also have been made available to those who needed access to ‘management information’, i.e. as part of the delivery of health and care.
**Publication title**: Health and Social Care Integrated Resource Framework NHS Scotland and Local Authority Social Care Expenditure

**Description**: High level expenditure across health and Local Authority social care. The information is provided at national and local integration partnership level.

**Theme**: Health and Social Care

**Topic**: NHS Scotland and Local Authority Social Care Expenditure

**Format**: Macro-enabled Excel workbooks and Tableau Dashboard

**Data source(s)**: Costed Acute inpatient and day case discharges (SMR01), Costed Geriatric Long stay discharges (SMR01_(E)), Costed Maternity inpatient and day case data (SMR02), Costed Mental health inpatient and day case data (SMR04), and expenditure statistics relating to each Local Authority, Joint Board and Regional Transport Partnership (LFR3).

**Date that data is acquired**: Apr-17

**Release date**: 05-Dec-17

**Frequency**: Annual

**Timeframe of data and timeliness**: Financial years 2012/13, 2013/14, 2014/15 and 2015/16

**Continuity of data**: Complete coverage of financial years 2012/13, 2013/14, 2014/15 and 2015/16

**Revisions Statement**: The data for years 2012/13, 2013/14 and 2014/15 have been revised from the previous publication published in 2016. The General Dentist Service (GDS) and General Ophthalmic Service (GOS) costs have been included in this year’s publication across all reported financial years. Providing once consistent methodology.

**Revisions relevant to this publication**: General Ophthalmology and General Dental costs have been included for 2012 and 2013 for the first time providing a consistent methodology across all years

**Concepts and definitions**: See readme sections in the excel workbook for information on the methodology and definitions.

**Relevance and key uses of the statistics**: Making information publicly available; the information provides health and social care partnerships with expenditure trends information to help gain a better understanding of costs for different groups.

**Accuracy**: Details on the collection of costs can be found here, and details of SMR activity completeness here.

**Completeness**: Data sources; SMR01, SMR01_(E), SMR02 and SMR04 are all 99% complete. Details can be found here.

The LFR received a return from all 50 Scottish local authorities (32 councils, 1 road bridge, 10 valuation joint boards and 7 transport authorities) and are...
based on their final, audited accounts (so will include all income and expenditure of those authorities). They do not include income/expenditure by central government (e.g. NHS), the third sector or any other non-LA organisation that may provide social care.

### Comparability

Due to the change in methodology mentioned in the revisions section, data reported this year (2017) cannot be compared with figures reported in previous years. However, data can be compared with the NHS Board’s inpatient and day case pivot tables and ISD Costbook which is used to generate this publication.

### Accessibility

It is the policy of ISD Scotland to make its web sites and products accessible according to published guidelines. See attached link for further details: [http://www.isdscotland.org/About-ISD/Accessibility/](http://www.isdscotland.org/About-ISD/Accessibility/)

### Coherence and clarity

Data are available in tables and charts on the Health and Social care publications area of the ISD website.

### Value type and unit of measure

Expenditure (in GBP) and percentage expenditure

### Disclosure

### Official Statistics designation

Non Official Statistics

### UK Statistics Authority Assessment

Not currently put forward for assessment.
