**National Statistics**

The United Kingdom Statistics Authority has designated the CAMHS waiting times and workforce statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics. Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods, and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.

The underlying data for the activity data has not yet been assessed by the Office for Statistics Regulation of the UK Statistics Authority for National Statistics status and as such this section of the publication remains as Official Statistics.
