STOMA APPLIANCES REIMBURSEMENT PRICES

Important Notices

1. This list includes those items which may be ordered by authorised prescribers on the appropriate lists of Health Board, and indicate the specifications and reimbursement prices which shall apply to the stoma services contractors (community pharmacy contractors and dispensing appliance contractors) who are authorised to dispense these lines.

2. Only those stoma appliances in this document shall be supplied and reimbursed.

3. This version is dated 1st October 2021.

4. Any application for addition, amendment or deletion of lines to this list must be made in writing to:

   Paul Dishington
   Commodity Manager
   National Procurement
   NHS NSS
   Gyle Square
   EDINBURGH
   EH12 9EB

To discuss the requirements please contact:
Paul.Dishington@nhs.scot ☎ 0131 275 6798

1. Original Belts (Apparatus) are supplied under the Hospital and Specialist Service.

2. Repairs and replacements may be supplied through the general medical services.

3. A contractor who will carry out the actual measurement, fitting and supply of the belt may only accept prescriptions ordering replacement of a complete Belt (Apparatus).

4. Orders for replacement of "a belt" are to be taken as being for the belt alone and the prescription referred back to the prescriber to specify order for a Complete Belt (Apparatus) where such appears to be required.

5. On discharge from hospital, the patient is issued with 2 copies of an Ostomy Appliance Record Form (a third copy is sent to the patient’s general medical practitioner). The Form details the items that have been supplied (including code no, size of appliance and unit pack size). The patient is asked to retain one copy and to give the second copy to his pharmacist or appliance supplier for future reference.
