About this Release
The following topics on the Scottish Public Health Observatory (ScotPHO) website have been updated:

- Crime (in the Life circumstances section)
- Prisoners (in the Population groups section)
- Methodology (in the Publications section, under Other key resources)
- Surveys (in the Publications section, under Overview of key data sources).

The updates include collations of previously available information, and present summary data and statistics derived from published sources. No previously unpublished data are included in this update.

Key Points
No key points are given, as no previously unpublished data are included in this update.

Background
The ScotPHO website contains comprehensive information on a wide range of topics grouped into sections including: behaviour; health, wellbeing and disease; and clinical risk factors. Along with summary data and statistics, the website provides background information, interpretation, policy notes, commentaries on data sources, references and links to further information.

Further Information
Further information can be found on the ScotPHO website.
Metadata and pre-release access information for this publication is available here.

About ISD
Scotland has some of the best health service data in the world combining high quality, consistency, national coverage and the ability to link data to allow patient based analysis and follow up.
Information Services Division (ISD) is a business operating unit of NHS National Services Scotland - and has been in existence for over 40 years. We are an essential support service to NHSScotland and the Scottish Government Health Department and others, responsive to the needs of NHSScotland as the delivery of health and social care evolves.

About ScotPHO
The Scottish Public Health Observatory (ScotPHO) collaboration is led by ISD Scotland and NHS Health Scotland, and includes the Glasgow Centre for Population Health, National Records of Scotland and Health Protection Scotland. Our aim is to make public health information more accessible and usable to improve health and reduce inequalities in Scotland.
