

Adult Mental Health Benchmarking Toolkit

Data to 31 March 2016

Publication Date – 5 September 2017

About this release

The Information Services Division has released data up to 31 March 2016 in the [Adult Mental Health Benchmarking Toolkit](#). The Adult Mental Health Benchmarking Toolkit aims to improve Mental Health Services by using benchmarking to understand and compare services and their outcomes and to promote best practice. The toolkit is primarily adult focused based on General Psychiatry and Psychiatry of Old Age specialties, and excludes Child and Adolescent Psychiatry, Learning Disabilities and Forensic Psychiatry services. However, for certain indicators data are not available at an adult only level and may pertain to the wider Mental Health service. It contains information on financial, prescribing, workforce and psychiatric hospital activity.
