

Dementia Benchmarking Toolkit

Data to 31 March 2016

Publication Date – 5 September 2017

About this release

This is the first release of the [Dementia Benchmarking Toolkit](#) by the Information Services Division. The toolkit provides a mechanism for monitoring and tracking change and improvement over time in respect of dementia services in Scotland. The toolkit contains data on prescribing, Quality and Outcomes Framework, hospital activity and care homes up to 31 March 2016.

Find out more

The Dementia Benchmarking Toolkit provides information to support the five key challenges of the Scottish Government's Dementia Strategy:

[Scotland's National Dementia Strategy](#)

Key indicators of dementia service performance are grouped within five domains in the toolkit to enable comparison of key aspects of performance and to identify gaps and opportunities for improvement.
