Quality Indicator Profile for Mental Health

An Official Statistics publication for Scotland (Experimental)
Publication date: 5 February 2019

About this release
This release by Information Services Division (ISD), presents the quality indicators that are currently available to inform the Quality Indicator Profile for Mental Health (QIPMH) as set out in Action 38 of the Mental Health Strategy 2017-2027.

The quality indicators included in this release are derived from data already collected by NHS Boards and provided to ISD. This release brings together previously published information and new data into a single report where users can gain an overview of mental health quality across Scotland.

Main Points

- There are 30 quality indicators included in QIPMH, including measures across the six quality dimensions;
  - person-centred
  - safe
  - effective
  - efficient
  - equitable
  - timely.

- This release includes eight quality indicators presented as infographics, as shown below:

Further Information

Further information can be found in the Mental Health Strategy 2017-27, and the Mental Health Quality Indicators page.

The next release of these QIPMH will be September 2019 and will include additional quality indicators as the data are developed.

ISD and Official Statistics

Information Services Division (ISD) is the principal and authoritative source of statistics on health and care services in Scotland. ISD is designated by legislation as a producer of 'Official Statistics’. Our official statistics publications are produced to a high professional standard and comply with the Code of Practice for Official Statistics. Further information about our statistics.
