

Publication Summary

Inpatient, Day Case and New Outpatient Stage of Treatment waiting times

(formerly known as New Ways)

Quarter ending 31 March 2012

Publication date – 29 May 2012

About this Release

This release details monthly and quarterly summary of waiting times and waiting lists in the acute sector of NHS Scotland (includes data to 31 March 2012).

Key Points

- At 31 March 2012, 97.8% of new outpatients (all sources of referral) had been waiting 12 weeks or less. This is the statistic used by NHS Boards, from 31 March 2010, to measure performance against the Scottish Government waiting times standard for new outpatients. This compares to a figure of 97.3% at 31 December 2011.
- At 31 March 2012, 93.6% of inpatients and day cases were waiting 9 weeks or less. This is the statistic used by NHS Boards, from 31 March 2011, to measure performance against the Scottish Government waiting times standard for inpatients and day cases. This compares to a figure of 93.7% at 31 December 2011.
- During quarter ending 31 March 2012, approximately 95.0% of new outpatients seen (all sources of referral) and 90.8% for inpatients and day cases admitted had waited less than the respective 12 and 9 week waiting times standard.

Background

This is the latest publication of waiting times statistics following the introduction of 'New Ways of defining and measuring waiting times' on 1 January 2008. This introduced a significant change in how NHS Scotland collects and defines waiting times, and also how waiting lists are clinically and administratively managed.

Waiting times are calculated taking account of any periods of unavailability and missed or cancelled appointments.

About ISD

Scotland has some of the best health service data in the world combining high quality, consistency, national coverage and the ability to link data to allow patient based analysis and follow up.

Information Services Division (ISD) is a business operating unit of NHS National Services Scotland - and has been in existence for over 40 years. We are an essential support service to NHSScotland and the Scottish Government Health Department and others, responsive to the needs of NHSScotland as the delivery of health and social care evolves.

Official Statistics

Information Services Division (ISD) is the principal and authoritative source of statistics on health and care services in Scotland. ISD is designated by legislation as a producer of 'Official Statistics'. Our official statistics publications are produced to a high professional standard and comply with the Code of Practice for Official Statistics. The Code of Practice is produced and monitored by the UK Statistics Authority which is independent of Government. Under the Code of Practice, the format, content and timing of statistics publications are the responsibility of professional staff working within ISD.

Further information on ISD's statistics, including compliance with the Code of Practice for Official Statistics, and on the UK Statistics Authority, is available on the [ISD website](http://www.isdscotland.org/About-ISD/About-Our-Statistics/) www.isdscotland.org/About-ISD/About-Our-Statistics/
