About this Release
Diagnostic Waiting Times are an important component in the delivery of the 18 Weeks Referral To Treatment standard (a maximum whole journey waiting time of 18 weeks from general practitioner to treatment).

This release details a summary of waiting times for total patients waiting, and those waiting over nine, six and four weeks, for the eight key diagnostic tests and investigations from June 2010 to June 2012.

Key Points
At 30 June 2012:

- Approximately 44 500 patients were waiting for one of eight key diagnostic tests in NHS Scotland.

- 97.2% of patients waiting for a key diagnostic test were waiting no longer than six weeks.

Patients waiting for all key diagnostic tests, NHS Scotland

Background
Information on the following eight key diagnostic tests and investigations waiting times has been collected nationally since 2006:

**Endoscopy**
- Upper Endoscopy
- Lower Endoscopy (excluding Colonoscopy)
- Colonoscopy
- Cystoscopy

**Radiology**
- CT Scan
- MRI Scan
- Barium Studies
- Non-obstetric ultrasound

The Scottish Government introduced a nine week maximum waiting time for these eight key diagnostic tests and investigations from 31 December 2007. This wait was reduced to six weeks from 31 March 2009.
