Allied Health Professionals – Musculoskeletal Waiting Times in NHS Scotland

Quarter ending 31 March 2017

Publication Date – 20 June 2017

About this release

This publication by Information Services Division (ISD) presents information on how long patients wait for Musculoskeletal (MSK) services that are delivered by Allied Health Professionals (AHP) in Physiotherapy, Occupational Therapy, Chiropody/Podiatry and Orthotics. This publication includes waiting times information for 13 NHS Boards, but not for every indicator, for the quarter ending 31 March 2017. These data are considered developmental.

Main Points

- Over half (55.3%) of the 74,960 patients who had a first clinical appointment with an AHP MSK service were seen within 4 weeks. This compares with 55.0% of patients during quarter ending 31 December 2016
- Nine out of ten patients were seen within 18 weeks.
- 92,881 people were referred to AHP MSK services compared to 82,738 for the quarter ending 31 December 2016.
- In the quarter ending 31 March 2017, 7.3% adults did not attend their out-patient appointment for AHP MSK services.

Percentage of patients seen within 4 Weeks
Background

MSK problems include a diversity of complaints and diseases localised in joints, bones, cartilage, ligaments, tendons, tendon sheaths, bursa and muscles. MSK problems also include outpatient pre or post orthopaedic surgery, peripheral nerve lesions (e.g. carpal tunnel, sciatica) or complication of fracture/dislocation/trauma.

The Scottish Government has determined that at least 90% of AHP MSK patients should wait no longer than 4 weeks from receipt of referral from a patient or health or social care professional. See NHSScotland Waiting Times Guidance for more information. The guidance target should be met by each profession individually within each Board.

Progress continues to be made with all NHS Scotland Boards who are developing their IT systems in order to provide the data. All NHS Scotland Boards provided data with the exception of NHS Fife due to data quality issues.
