Allied Health Professionals – Musculoskeletal Waiting Times in NHS Scotland
Quarter ending 31 March 2018

A Management Information publication for Scotland
Publication date: 19 June 2018

About this release
This release by Information Services Division gives a quarterly update on how long patients wait for Musculoskeletal (MSK) services that are delivered by Allied Health Professionals (AHP) in Physiotherapy, Occupational Therapy, Chiropody/Podiatry and Orthotics. These data are considered developmental and progress continues to be made with all NHS Boards who are developing their IT systems in order to provide data for all indicators.

Locally sourced figures have been provided by NHS Ayrshire and Arran to inform the AHP MSK Waiting Times publication. NHS Tayside have not been able to provide any data since July 2017 due to patient management system changes.

Main Points
Of the 13 NHS Boards that submitted data:

- Over half (52.7%) of the 67,176 patients who had a first clinical appointment with an AHP MSK service were seen within 4 weeks for quarter ending 31 March 2018.

- There were 97,312 referrals to AHP MSK services in this quarter.
- Over a third (43.7%) of the 58,073 patients waiting for a first clinical appointment with an AHP MSK service had been waiting 4 weeks or less at 31 March 2018.

Percentage of patients seen within 4 Weeks

Target = 90%
Background

MSK problems include a diversity of complaints and diseases localised in joints, bones, cartilage, ligaments, tendons, tendon sheaths, bursa and muscles. MSK problems also include outpatient pre or post orthopaedic surgery, peripheral nerve lesions (e.g. carpal tunnel, sciatica) or complication of fracture/dislocation/trauma.

The Scottish Government has determined that at least 90% of AHP MSK patients should wait no longer than 4 weeks from receipt of referral from a patient or health or social care professional. See NHSScotland Waiting Times Guidance for more information. The guidance target should be met by each profession individually within each NHS Board.

Further information regarding NHS boards submitting data can be found here.

Please see News and Updates section of our website for more details.

Further Information

Find out more in the full report. The data from this publication is available to download from our web page along with a metadata document.

For more information on AHP MSK see the waiting times section of our website. For related topics, please see the waiting times information page.

ISD have developed a video, with further explanations of how waiting times are calculated.

The next release of this publication will be September 2018.

ISD and Official Statistics

Information Services Division (ISD) is the principal and authoritative source of statistics on health and care services in Scotland. ISD is designated by legislation as a producer of ‘Official Statistics’. Our official statistics publications are produced to a high professional standard and comply with the Code of Practice for Official Statistics. Further information about our statistics.
