IVF Waiting Times in NHSScotland
Quarter ending 30 June 2018

About this release
This release by Information Services Division contains the quarterly update on how long eligible patients waited from referral to screening appointment for in vitro fertilization (IVF) treatment by the NHS in Scotland.

The standard is for 90% of eligible patients to be screened at an IVF Centre within 365 days of receipt of referral from a secondary care/acute consultant.

Main Points
During the quarter ending June 2018:

- The four IVF centres in Scotland screened 373 eligible patients, compared with 370 in the previous quarter.
- 100% of patients were screened for IVF treatment within 273 days.
- The 90% standard continues to be met since it was first measured in March 2015.

Percentage of eligible patients screened for IVF treatment by length of wait

- Patients Seen Outwith 365 Days
- Patients Seen Between 274 and 365 Days
- Patients Seen Between 183 and 273 Days
- Patients Seen Between 92 and 182 Days
- Patients Seen Within 91 Days
- 90% Standard
Background

IVF is an effective method of assisted reproductive technology.

Each of the 14 territorial NHS Boards in Scotland commissions cycles of IVF from one of the four specialist tertiary referral Centres providing NHS treatment (Aberdeen, Dundee, Edinburgh and Glasgow).

The Scottish Government requires NHSScotland to measure the length of time people wait for treatment. The target that 90% of eligible patients (which includes treatment for male infertility) will begin IVF treatment within 12 months by 31 March 2015 is measured by the percentage of patients who were screened at an IVF Centre within 12 months of receipt of referral from a secondary care/acute consultant. This target is now a Local Delivery Plan (LDP) standard.
