Psychological Therapies Waiting Times in NHSScotland

An Official Statistics publication for Scotland

Publication date: 5 March 2019

About this release

This release by Information Services Division (ISD) summarises how long people waited to start treatment for Psychological Therapies provided by NHSScotland, for the quarter ending December 2018.

Main Points

For the quarter ending December 2018:

- 16,742 people started treatment for Psychological Therapies in 14 NHS Boards and NHS 24. This compares with the previous quarter (16,631).

- Nearly eight out of ten patients (78.0%) were seen within 18 weeks, which compares with 78.2% for the previous quarter. The standard is that 90% of people should start their treatment within 18 weeks of referral.

- One NHS Board (NHS Greater Glasgow and Clyde) met the standard of treating 90% of patients referred within 18 weeks.

- 1,057 people aged 65+ started treatment for Psychological Therapies in this quarter, 87.5% were seen within 18 weeks, which compares to 88.0% in the previous quarter.

Background
Waiting times information for Psychological Therapies is still being developed. NHS Boards are working with ISD and the Scottish Government to improve the consistency and completeness of the information. The Scottish Government has set a standard for the NHS in Scotland to deliver a maximum wait of 18 weeks from a patient’s referral to treatment for Psychological Therapies from December 2014. The standard should be delivered for at least 90% of patients.

Psychological Therapies refer to a range of interventions, based on psychological concepts and theory, which are designed to help people understand and make changes to their thinking, behaviour and relationships in order to relieve distress and to improve functioning. The standard applies specifically to Psychological Therapies for treatment of a mental illness or disorder.

Scottish Government asked Healthcare Improvement Scotland to lead a programme of work to improve access to Psychological Therapies. ISD are a partner in this programme of work providing data, analytical and intelligence support working closely with NHS Boards.

NHS Borders are unable to provide data for Psychological Therapies delivered in Child and Adolescent Mental Health Services and Learning Disabilities due to migration issues.

Please see News and Updates section of our website for more details.

Please see the Psychological Therapies Report for more information on the data quality.
