About this Release
This release forms part of the quarterly workforce publication cycle, and includes information on staff in post across all NHS staff groups, staff turnover and vacancy information for nursing and midwifery, allied health professions, and consultants as at 31\textsuperscript{st} March 2014. It also includes agency and bank use for nursing and midwifery staff for the year ending 31\textsuperscript{st} March 2014 and staff governance information on sickness absence and equality and diversity.

Key Points

- The total number of NHSScotland staff in post, excluding General Medical Practitioners (GPs) and General Dental Services (GDS) continues to increase with 135,625.7 whole time equivalent (WTE) and 158,764 headcount on 31\textsuperscript{st} March 2014.

- The annual increase in staff of 1.8% is mainly due to increases in nursing and midwifery (1,136.1 WTE), administrative services (369.1 WTE), medical (265.4 WTE) and other therapeutic services (130.3 WTE). The only group to show a decrease is dental (10.7 WTE).

- The largest group in the workforce continues to be nursing and midwifery, which accounted for 42.9% of all staff (excluding GPs & GDS) with 58,172.7 WTE at 31\textsuperscript{st} March 2014.

- Allied health professions (AHP) staff increased by 16.8% WTE (1,610.7) and 14.3% headcount (1,657) since March 2013. This annual change is due to paramedics being reclassified as AHPs from 1\textsuperscript{st} April 2013; previously they were included in the emergency services job family.

- The number of consultants in post (excluding directors of public health) also continues to rise with 4,693.6 WTE at 31\textsuperscript{st} March 2014 compared to 4,531.6 WTE at 31\textsuperscript{st} March 2013.
On the 31st March 2014, the total number of vacancies for:
- consultants (excluding directors of public health) was 324.8 WTE, a rate of 6.5%.
- nursing and midwifery was 1,637.5 WTE, a rate of 2.7%.
- allied health profession was 452.5 WTE, a rate of 3.9%.

Nursing and midwifery bank staff provided 3,933.0 WTE of cover at a cost of £118.2m. This is an increase of 10.1% WTE and £14.0m on 2012/13. Agency nursing and midwifery staff provided 124.5 WTE of cover at a cost of £9.3m. This is an increase of 35.3% WTE and £2.9m on 2012/13.

About ISD
Scotland has some of the best health service data in the world combining high quality, consistency, national coverage and the ability to link data to allow patient based analysis and follow up.

Information Services Division (ISD) is a business operating unit of NHS National Services Scotland - and has been in existence for over 40 years. We are an essential support service to NHSScotland and the Scottish Government Health Department and others, responsive to the needs of NHSScotland as the delivery of health and social care evolves.

Official Statistics
Information Services Division (ISD) is the principal and authoritative source of statistics on health and care services in Scotland. ISD is designated by legislation as a producer of ‘Official Statistics’. Our official statistics publications are produced to a high professional standard and comply with the Code of Practice for Official Statistics. The Code of Practice is produced and monitored by the UK Statistics Authority which is independent of Government. Under the Code of Practice, the format, content and timing of statistics publications are the responsibility of professional staff working within ISD.
Further information on ISD’s statistics, including compliance with the Code of Practice for Official Statistics, and on the UK Statistics Authority, is available on the ISD website www.isdscotland.org/About-ISD/About-Our-Statistics/
